Education

Pune Institute of Computer Technology **CGPA: 9.79**
Bachelor of Engineering in Computer Engineering *Aug 2023 – June 2027 (Expected)*

K.V.N Naik College **84.5%**
Higher Secondary Certificate (HSC) - MHT CET: 99.18%ile *June 2023*

Bhosala Military School **90.6%**
Secondary School Certificate (SSC) *June 2021*

Experience

PICT NSS – Technical Head **Aug 2025 – Present**
Pune Institute of Computer Technology *Pune, Maharashtra*

- Managing and maintaining the PICT NSS website and mobile app for smooth, secure operation.
- Handling updates, deployments, and feature enhancements for volunteer engagement.

Projects

RentEasy - A Rental Marketplace GitHub

- Rental **marketplace platform** enabling users to list and rent **tools, gadgets, and furniture** with **secure transactions**.
- Secure **user authentication** using **JWT** and **Google Auth** for enhanced account management and security.
- Product **recommendation system** using **Content Based Filtering** and **Popularity-Based algorithms**.
- **Cloudinary cloud storage** for optimized **image handling** with **add to cart**, **notifications**, and **product review system**.
- **Real-time renter–owner chat** using **Socket.IO** along with **secure payments** for smooth transactions.

Kaam Setu - Urban Skilled Workers Booking Platform GitHub

- Built a **service marketplace** connecting customers with verified **electricians, plumbers, and urban service providers**.
- Implemented **real-time customer–provider communication** using **Socket.IO** with live chat and booking status visibility.
- Designed **secure authentication workflows** using **email verification** for trusted user onboarding.
- Developed **role-based dashboards** for **Customers, Providers** with booking management and provider verification.
- Implemented **provider workflow management** (on-the-way, work started, work completed) integrated with a **payment gateway**, **wallet tracking**, detailed payment history, and a **ratings & review system**.

Blood Bank Management System GitHub

- Built a **full-stack blood donation platform** for **hospital** and **inventory management**.
- Implemented **role-based access** for hospitals, donors, and admins to ensure **secure and restricted data access**.
- Designed **RESTful APIs** using **Express.js** and **TypeScript** for **CRUD operations** and **real-time updates**.
- Used **MySQL** for **relational data storage** and **optimized queries** for donation history and blood stock management.
- Developed a **responsive frontend** with **React.js** and **shadcn-ui** improving usability for hospital staff and administrators.

Technical Skills

Programming Languages: Python, JavaScript, C++, Java, TypeScript

Web Technologies: Next.js (Learning), Node.js, Express.js, React.js, Flask, FastAPI

Databases: MongoDB, PostgreSQL, MySQL

Agentic/Generative AI: LangChain, LangGraph, LLMs, RAG, Vector DB, chains

Tools & Platforms: Docker, GitHub, Cloudinary, Hugging Face

Extracurricular Activities & Achievements

Winner of **Hire Hustle 2025**.

Secured **Top 10 position** in a **Google Developers Hack-A-Bit**, competing against multiple university teams.

Part of **PICT NSS** activities such as blood donation, school teaching, and tree plantation, and led two major events—**Rakhi Celebration** and **Police Mitra**.

President, PICT CSAC - organized career-oriented sessions by inviting **guest speakers** for **Civil Services, GATE, GRE, and CAT** aspirants.

Conducted **Machine Learning SIG** at **PASC**, mentoring **100+ students** in core machine learning concepts.

Assisted in the successful execution of **competitive programming contests** for **300+ participants** as a volunteer for **INC Pradnya**.

Solved **500+ Data Structures and Algorithms problems** across platforms including **LeetCode**, **Codeforces**, and **CodeChef**.
